

PROJECT NAME: 600 North Water Reservoir

RECIPIENT: Tooele City

LOCATION: Tooele, Utah

PURPOSE: Construction of a one million gallon water reservoir for Tooele City in order to continue promoting the growth of the community for commercial and industrial development. Total cost of the project is \$2.5 million, of which the city is requesting 50% funding by the federal government. The project meets the capital improvement plan for the city.

The project is a water reservoir project which will assist the city in providing water to future commercial and industrial development within the community. In order to promote new job growth within the city, the city has a need to develop additional water resources. Without this water resource the city is limited in its ability to serve these future job promoting projects. Tooele City has become one of the targeted areas for industrial job growth within the State of Utah due to the amount of affordable land and residential growth.

AMOUNT: \$1,250,000
